Patenting Landscape in India - A View on Patenting Trends in India

This is a report prepared on the basis of the Annual Report 07-08 provided by the Indian Patent office. This report provides us with an analysis of the patenting trends in the last five years (i.e. From 2003-2008). The data for the analysis is taken from the Annual Report - 2007-08 provided by the Indian Patent Office. This report provides graphical representation of the trends followed in Indian patent office which gives us a better perspective of the progress made by the Indian Patent Office (IPO), the rise of patenting in various fields of inventions and major contributors to the patent filing trend in India.
