

# Patent Resources

Here is a listing of all the "Patent Resources" pages and a handy search box which finds results only within these pages.

These pages complement the information that is more generally patent oriented on the [Knowledge Pages](#).

Most of these pages were originally prepared by Elyse Turner and others for the PIUG website before the PIUG wiki was developed and the content moved to it. Because this is a wiki, your wikimasters and colleagues welcome edits and additions by members of the PIUG wiki community.

In particular, note the [Patent Information Bibliography](#) that includes these subpages:

[Books](#)

[Articles](#)

[Other references](#)

[Top Ten Publications by Stephen Adams](#)

[Top Ten Publications by Edlyn Simmons](#)
