

# Forum - Situations Wanted

Current PIUG members may post new topics and reply to them in this forum. Provide other contact information for direct communication for interested parties.

Please title each new topic with **Wanted** - or **Offering** - at the beginning in order to facilitate recognition by recipients of email notifications.

This forum is intended to enable communication among the PIUG community on non-technical, non-patent, non-PIUG topics that normally would be posted in the main PIUG Discussion Forum. Such topics might include looking for employment or consulting opportunities, making arrangements to meet or share rooms at PIUG Conferences, or asking for cast members and crew for the annual IFFI Players show at Annual Conferences. Let's all see how this forum develops!

Users who post here should return to update topics when they are no longer applicable, such as by modifying the title with **expired**, **filled**, **inactive** or the like, in a timely manner. Be sure to check the "Minor Change?" box if you don't want an email notification to go out to all users "watching" the topic.
